

Series 650-6106/33

Blackboard Ink, black

The blackboard ink Series 650-6106/33 was developed for classic blackboard applications. On suitable substrates, a durable, resistant coating is created which can be written on with chalk reversibly and in a long-term manner. Typically, the series is used to produce full-surface or partial labelling fields for promotional material in the catering sector and is characterised by its good acceptance of chalk and easy cleaning.

On request, besides black, nearly any other color shade can be realised using this technology.

Specifications

Thinner	Series 600-017
Addition ratio	10–20 % by weight
Retarder	Series 600-018
Addition ratio	5–15 % by weight
Hardener	Series 600-HDA
Addition ratio	5:1
Cleaner	Series 600-URS
Mesh	77.55 to 100.40
Drying	Air / Forced drying
Substrates	See Technical Data Sheet Series 650
Indoor / outdoor use	Indoor and outdoor
Further processing	Cutting, punching, embossing
Overprintability	Yes
Available quantities	1 kg, 5 kg
Shelf life	24 months
Others	Stir well before use.

Important information: Our technical advice whether spoken, written, or through test trials corresponds to our current knowledge to inform about our products and their use. This is not meant as an assurance for certain properties of the products nor their suitability for each application. You are, therefore, obliged to conduct your own tests with our supplied products to confirm their suitability for the desired process or purpose. The selection and testing of the ink for specific applications is exclusively your responsibility. Should, however, any liability claims arise, such claims shall be limited to the value of the goods delivered by us and utilized by you with respect to any and all damages not caused intentionally or by gross negligence.
